**Please note underlying fund charges are in addition to the charges listed above.**

### Key objectives

This strategy is suited to clients looking to invest for the long term whilst taking into consideration a range of socially responsible criteria. The strategy provides access to collective investments within a globally diversified managed portfolio.

The portfolio looks to exclude companies which are substantially involved in or cause animal testing (non-medical); countries or companies with evidence of poor human rights records; companies whose main source of revenue is gambling, arms production and export, production and sale of tobacco, production and sale of weapons systems and those who irresponsibly promote alcohol. We look to exclude companies involved in pornography and nuclear power where possible.

Many of the funds use a positive screen in addition to a negative screen, rewarding companies for positive actions. For example, in the areas of renewable energy, reducing environmental impact and positive social contributions.

NB: This strategy is available directly from Whitechurch and through external platforms.

### Investment manager's comment

	Looking Back: The strategy rose in value over the previous three months, outperforming the benchmark, ARC £ Balanced Asset PCI, which returned 4.6%.
	Best performing holding: The best performing holding over the period was Liontrust Sustainable Future Global Growth 2 Acc, which returned 13.7%. The fund was helped by its exposure to US equities which had a very strong quarter.
	Worst performing holding: The worst performing holding over the reporting period was BMO UK Property 2 Inc, which returned 0.0%. Whilst the fund made no progress in terms of capital growth it continues to pay an attractive dividend.
	Portfolio Changes: No changes were made to the holdings within the portfolio over the reporting period.
	Looking Ahead: Financial markets enjoyed some strong performance over the reporting period, and it was pleasing to see the strategy outperform its benchmark in this environment. However, as longer term investors it is important to look through the shorter term quarterly movements in financial markets, positive or negative, and focus on the portfolio's longer term objectives. We continue to believe over the longer term the portfolio is well placed to deliver an attractive total return investing via a portfolio of an ethical investment strategies, within a balanced risk profile.

Performance Table	1M	3M	6M	12M
PMS Ethical Balanced - Risk 5	1.6%	7.2%	0.3%	4.4%
<b>ARC £ Balanced Asset PCI</b>	<b>1.5%</b>	<b>4.6%</b>	<b>-1.6%</b>	<b>2.4%</b>

Source: FE Analytics, Whitechurch Securities. Performance figures are calculated net of fees in sterling. Unit Trust prices are calculated on a bid-to-bid basis. OEICs & Investment Trust prices are calculated on a mid-to-mid basis, with net income reinvested. The past is not necessarily a guide to future performance. The value of investments and any income will fluctuate and investors may not get back the full amount invested. Currency exchange rates may affect the value of investment.

## Asset allocation - Portfolio breakdown

(at 31st March 2019)

- UK Equities 25.3%

### Risk Profile 5/10 - Balanced

This is a balanced strategy focused towards investors who accept a degree of risk whilst looking to enhance returns. This strategy will invest up to a maximum of 60% in equities with the aim of enhancing returns over the medium to long term and combating inflation. Investors accept that the overall portfolio will show losses over certain periods but are accepting a medium level of risk in return for a potentially higher return over the long term.

### Whitechurch Risk Ratings

Risk is defined as the risk to the capital or original investment (based on a minimum 5 year investment term). Whitechurch provides a risk rating of portfolios on a scale of 1 to 10 (1 being the lowest risk and 10 being the highest risk). Full guidelines are available in the Whitechurch Portfolio Management Service brochure.
