Prestige Investment Management Service Ethical Portfolios

	Investment Objective	
	Ethical Income & Growth	Distribution Technology Risk Rating
10	It is not feasible for Whitechurch to construct active, managed portfolios for risk categories that fall into 9 and 10. This is because there is a lack of investment vehicles and options available that we would be able to utilise in order to provide a truly active and diverse portfolio to meet such a speculative strategy. However, investors whose risk profile is 9 or 10 may want to consider balancing their total investment position with an Aggressive Growth 8 out of 10 portfolio.

2	It is not feasible for Whitechurch to construct active, managed portfolios for risk categories that fall into 1 and 2. This is because there is a lack of investment vehicles and options available that we would be able to utilise in order to provide a truly active and diverse portfolio. If investors are looking to reduce the risk of a portfolio for a short period, we can provide a cash reserve facility (risk profile 2).

Risk Profile 4/10

This is a cautious strategy, where the emphasis is upon steady returns and the majority of the portfolio will be invested in lower risk investments. This strategy will invest up to a maximum of 35% in equities with the aim of enhancing returns over the medium to long-term and combating inflation. Investors accept that the overall portfolio will show losses over certain periods but are accepting the moderate risk in return for potentially achieving returns in excess of cash over the medium to long term.

Whitechurch Risk Ratings

Risk is defined as the risk to the capital or original investment (based on a minimum 5 year investment term). Whitechurch provides a risk rating of portfolios on a scale of 1 to 10 (1 being the lowest risk and 10 being the highest risk). Full guidelines are available in the Whitechurch Prestige Investment Management Service brochure.
